

## Granite Hills CCC Project Update

Meeting 6 – September 11, 2018

# Project Update - Items for Discussion

1. Project Update
2. Outstanding Community Items
3. Changes as a result of Community Feedback
4. Previous Community Engagement
5. Our Goal

# 1. Granite Hills Project Update

## ➤ Status of Project:

- EIS process ongoing -> awaiting EPBC response;
- Level 2 bird assessment scoped and ready to start;
- Telecoms etc resolved, shortly commence noise, visual;
- Design being reviewed and amended due to stakeholder feedback from neighbours, OEH, community etc;
- Heritage ongoing through independent specialist in consultation with multiple registered parties
- Stakeholder management ongoing; neighbours, finalising stakeholder plan, draft available to view

## 2. Outstanding Community Items

- 
- Stakeholder Management Plan
    - ◆ Final Draft present in hard copy, will be made public once approved and added to website;
    - ◆ Minor information to update and sign-off by DPE to finalise;
    - ◆ Sharyn to discuss key messages, stakeholder plan and engagement.

### 3. Changes to Accommodate Feedback

- Your feedback is informing the design and project, it has already:
  - Removed turbines and infrastructure from East of site to eliminate environmental impacts in that area;
  - Infrastructure removal near Nat. Park and State forest;
  - Increased distance of turbines from residences;
  - Led to standardised neighbour consultation and communication of all owners included in this group;
  - Review of neighbour suggested groupings -> we are seeking ongoing communication with neighbours.
- Your direct feedback is being heard and will be used within the constraints of the development.

## 4. Examples of Previous Community Engagement

## 5. Our Goal:

*'Is to have ongoing two-way communication with the community, listen to constructive feedback and use it to progress Granite Hills development in the manner of greatest benefit.'*

Please provide feedback to:
